Rich Media

Rich media ads generate extraordinary results, whether the goal is clicks, conversions or brand awareness.

Advertisers are offered the freedom to blend movement, audio and eye-grabbing graphics over an entire page — creating consistent and powerful messages. Rich media has proven to increase ad response and overall campaign effectiveness. There are numerous ad formats to choose from including: interstitials, floating ads, full-page overlays, commercial breaks and wallpaper ads. Creative can run over the start page and several other high profile pages.

Ad Specifications:

Please speak to a business development executive for details on formats and other specifications.
